João Pedro

Hi! My name is Joao Pedro and I am a software developer student and a self-thaught full-stack developer. My main focus is on web and mobile technologies such as Angular, Flutter, Vue and Spring Boot. I focus on using strongly typed and fully OOP technologies.

- Linux
- MacOS
- Windows

Software & Tools

- Neovim
- Docker
- Office
- Git
- Github

Languages

- English
- Portuguese
- Spanish
- French

ABOUT ME

In 2020 I decided to make an effort to study consistently and put aside games and friends. I wanted to prepare myself to be independent programmer and to improve myself as a developer and as a person. I'm actually studying Software Engineering BSc (Hons) on the UK.

WORK HISTORY

04/2018 - 10/2018
Hashpower,
Leiria, Portugal
